**NOTES:**

- Brightness – Maximum lumens for all ACC signs, set from industry stds, best practices, with maximum night & day levels
- Central Business District – proposed Downtown Design Overlay District guidelines with separate sign standards
- NC 68 Scenic Corridor Overlay – does not permit changeable copy signs, except when not visible from NC 68
- Delay – minimum delay on content change
- White - maximum percentage of content shown in white (or very bright) colors
- Off? - illumination of sign turned off at certain time (until 7 am)?
